Genetic Research Update into Canine Epileptiform Cramping Syndrome in The Norwich Terrier

(Pre-booking essential)

Date: November 9th 2019

Time: 1.30 pm (No admission prior to 1pm – unless Lunch has been booked)

Venue: Weedon Village Hall, Weedon Northants NN7 4QU

Cost: Free to members of the Norwich Terrier Club and anyone attending the morning BAD, £5 for Non-Members attending the afternoon only

All Norwich Terrier Owners are invited to attend a talk, plus question & answer session, given by two Veterinary Genetics Experts from the Animal Health Trust Dr Sally Ricketts PhD (Post- Doctoral Geneticist, Canine Genetics Research Group) & Genetics PhD student Chris Jenkins. Tea/Coffee & Biscuits will be provided FOC to all.

NB **Norwich Terriers aged 6 years or over are especially requested to attend if they have NOT previously had their DNA swab samples submitted to the AHT. ** Kennel Club Registration details & a copy of their pedigree is required. DNA Swabs will be taken under the supervision of the AHT experts.

A light lunch at 12.30pm is available @ £5 per person. Pre-booking essential.
